

CS499 Fall 2016

Stephen Williams, Nick Schorr, Joshua DeLong, Nathaniel Hunter

09/19/2016

Metrics

Estimated Story Points:

- User Register
- User Login
- User Logout
- User Subscribe to Letter
- User Unsubscribe to Letter
- User Views Homepage
- User Views Training Section
- User Views Training Page

Product Size:

- Functional Requirements - 25
 - System requirements - 13
 - Non-logged-in User Requirements - 6
 - Logged-In User Requirements - 6
- Non-Functional Requirements - 12
- Story Points - 8

Product Effort:

The required effort for the product can be determined by analyzing the amount of time it will take to complete each of the story points.

- User Register - 1 to 5 hours
- User Login - 1 to 5 hours
- User Logout - 1 to 5 hours
- User Subscribe to Letter - 1 to 5 hours
- User Unsubscribe to Letter - 1 to 5 hours
- User Views Homepage - Approximately 1 hour
- User Views Training Section - 5 to 10 hours
- User Views Training Page - 5 to 10 hours

At the current time of writing (09/18), approximately 15 hours have been spent on the project.

This includes formulation of use cases and all other planning, as nothing has been implemented yet.

Defects:

None thus far.
